REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: the art of record does not teach or discuss a data management system for protected computer systems which comprise a plurality of storage devices which individually have a respective capacity with the respective capacity being both storage capacity and processing capacity. A quantity of data stored in the protected computer systems exceeds capacities of the individual storage devices. If the capacity is storage capacity then the storage is increased to accommodate the increased amount of stored data or the data is rearranged to load balance the data in the protected storage system and the exceeded storage device is relieved of the data excess. If the capacity is processing capacity then the process input/output requests are managed, archive agents which are part of the storage devices control the processing capacity are invoked to control the processing capacity of the input/output requests. The archive agents monitor capacities of the individual storage devices for both storage ability and processing capability.

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
